PC of tranquillity!

430183 • PC Aquarium Desktop Theme CD-ROM with 26 Tropical Fish & Sounds • £16.98

Transform your monitor into a calming aquarium with this great CD-ROM. Amazingly realistic, it features three-dimensional fish that are animated in real time and behave just like real fish. You can touch them, feed them or simply watch their fluid, graceful movements as they swim around their virtual aquarium.

The CD-ROM runs as a standalone, a screensaver or as active desktop wallpaper, appearing behind your desktop icons. This deluxe version comes with a bonus pack of additional fish and backgrounds, so you can customise your marine environment with up to 45 fish, choosing from 26 beautiful species and different tanks.

To complete the sensory experience, you can add an MP3 track and relax to your own choice of background music. And if you fancy something even more personal, you can use your own photos or images as the aquarium background - all common image formats are supported.

So sit back, relax and watch your cares swim out of sight as you become engrossed in this fascinating underwater world!

Features at a glance:

Real-time lifelike 3D fish

Runs as desktop background, screensaver and standalone

Bonus pack with additional fish and aquariums

26 species of marine tropical fish with realistic aquarium sound atmosphere

Supports formats including MP3, Midi and Wave for personal background music

System requirements:

Windows 98 (SE), ME, 2000, XP
 Pentium 450 Mhz or higher
 64Mb RAM
 20Mb disk space
 3D accelerator with 8Mb video RAM
