Health & Beauty > Prescriptives > Serious Skincare

Since 1979, Prescriptives has combined proven ingredients, brilliant textures and advanced technologies to prescribe personal answers to your skincare questions.

The newest addition to Prescriptives skincare is the Dr. Designed skincare range, developed in partnership with renowned dermatologist Dr. Karyn Grossman to create a customised skincare regime for every skin type. Dr. Grossman's personal philosophy is to listen carefully to each patient's unique concerns.

She says, "My philosophy is to empower my patients with knowledge that will help us to create individualised programmes that address their specific needs. Working with Prescriptives, our goal is to bring the highest-quality, most innovative and effective products to people everywhere." The Dr. Designed Skincare range includes Dermapolish System, Redness Relief Gel, Anti-Blemish Serum, Skin Tone Correcting Serum and Skin Renewal Serum.

*magic by Prescriptives is an extraordinary concept that optically transforms the skin, diffusing light to create an illusion of perfection - right before your eyes!
 *magic goes beyond make-up to explore the secrets of Hollywood special effects artists, manipulating light and shadow to obscure imperfections and create flawless-looking skin...
