Double Deal

A DVD player and VCR - one unit, one great price!

420042 • £164.28 • Daewoo DVD Player with Combined 6 Head Nicam VCR
QVC Price £180.00

Tempted to buy a DVD player - but still want the benefit of video tape? Daewoo's DVD player with combined Nicam VCR is the perfect solution! It means you can still record and play with VHS, but also enjoy all the advantages of DVD technology.

Because the DVD player and VCR are in one compact unit, you save on space as well as eliminating wires and clutter. And the dual functionality means you can record a programme onto a VHS tape while watching a movie on DVD.

The DVD player boasts a full range of features, including 3D virtual surround sound playback, picture mode select, multi-angle and frame by frame playback, zoom and parental lock.

The six-head Nicam VCR's features include VideoPlus+, one-touch recording and short- and long-play recording and playback. And it allows you to transfer moving images from a CD-R or CD-RW disc onto a VHS tape, too!

Take a look at the list of features on the right for the full range of benefits...
